

British Shooting Great Britain 10m, 25m & 50m Pistol & Rifle Selection Policy 2019/20

This document outlines the procedure British Shooting will use to select the Great Britain team to compete at major international events.

1.0 Introduction

The main objective of the selection procedure is to select the athletes who have the best chance to win the best set of medals for Great Britain at major events. The policy describes in detail the sole process and criteria by which athletes are selected to represent Great Britain (GBR).

This document is the British Shooting policy for the process and criteria for selecting teams and individuals to represent Great Britain at all international competitions in the ISSF 10m, 25m and 50m Rifle events, with the exception of the World University Championships and multi-sport events, including the World University Games subject to agreement with BUCS and the European Games, Youth Olympic Games and the Olympic Games, which are subject to an existing policy agreed with the British Olympic Association (BOA).

For the 2020 season the list of Major Events includes:

- ISSF World Cups (New Delhi, IND; Munich, GER; Baku, AZE)
- European 10m Championships, Wroclaw (POL)
- Junior World Cup, Suhl (GER)

It supersedes all previous selection policy documents published by British Shooting, the Great Britain Target Shooting Federation and the National Small-bore Rifle Association. Separate selection policies cover the 300m ISSF Rifle events and for both the JPN Olympic Test Event in April 2020 and the Olympic Games in Tokyo, JPN. Where total team size is restricted under ISSF rules (ESC European and ISSF World Championships) then Olympic events should take priority.

2.0 Selection of athletes

2.1 Criteria for consideration

Athletes will only be considered for selection if they have achieved the Minimum Consideration Standard (MCS) (See section 2.2). To ensure consistency across events, MCSs are based on the average scores needed to attain 15th place at Major competitions in recent years, rounded to the nearest integer or one decimal place, as appropriate. These can be seen in section 2.2 below, and will be published on the British Shooting website and will be reviewed annually.

In order to have achieved the MCS standard:

- i) **A senior athlete's top two selection match scores in the previous 12 months must equal or exceed the MCS**
- ii) **A junior athlete must achieve one score equal to or above the MCS**

2.2 Minimum Consideration Scores

The following minimum consideration score (MCS) will apply for GBR team selection. MCS scores must be achieved at a British Shooting recognised international Major, Domestic or International Grand Prix or selection event within the previous 12 months.

2.2.1 The Rifle event MCSs for 2020 are listed below:

Event	Senior	Junior
Men's 50m 3x40	1174	1157
Men's 50m Prone	623.1	617.3
Men's 10m Air Rifle	626.7	622.3
Women's 50m 3x40	1171	1156
Women's 50m Prone	620.7	616.9
Women's 10m Air Rifle	626.9	624.4

2.2.2 The Pistol event MCSs for 2020 are listed below:

Event	Senior	Junior
Men's 10m Air Pistol	576	570
Men's 50m Pistol	548	533
Men's 25m Rapid Fire	578	564
Women's 10m Air Pistol	573	564
Women's 25m Pistol	582	569
Men's Standard Pistol	563	555
Centre Fire Pistol / 25m Pistol JM	578	571

It should be noted that attendance (within the previous 12 months) at a minimum of one UK based selection match is required for each of the 10m, 25m and 50m events in which an athlete wishes to be considered for selection.

2.3 Selection Criteria

Once an athlete has achieved the criteria for consideration, the GBR Selection Panel will use the following criteria (in no particular order) as the basis for shooter selection.

- 1) Performance in Major Events during the previous 12 months, with particular emphasis on athletes achieving either a medal or final placing.
- 2) Performance in Major Events during the previous 13 to 24 months, with particular emphasis on athletes achieving a medal placing.
- 3) Performances in recognised domestic and international events during the previous 12 months, with particular emphasis on achieving either the MCS score and/or medal or final placing particularly at international competitions.
- 4) Performance trajectory; an upward trend being most favourable.
- 5) Potential to win a medal at the forthcoming Major Events.

Following consideration of the selection criteria, the panel may also consider the following (in no particular order and at the discretion of the selection panel):

- A An athlete who has an average of their two best scores equal to or above the MCS may be considered for selection as having the equivalent of two MCS at the discretion of the Panel.
- B Athletes who have achieved MCS in one event may be considered for selection as an ISSF MQS entry in other events at the discretion of the Selection Panel and subject to compliance with relevant ISSF Rules for entries.
- C Where team (including APMIX & ARMIX) places remain unfilled, an athlete already selected in one or more events may be selected to shoot in additional event(s) at the same competition provided it makes sense to do so from a training and logistical perspective and would not be detrimental to their performance in the event(s) for which they were originally selected.
- D The Selection Panel may consider athletes for selection who have not met the MCS score criteria. These selections may be considered for developmental purposes and the future potential of the athlete(s) based on the remaining applicable criteria (i.e. other than achievement of the minimum MCS score). This decision shall entirely be within the discretion of the Selection Panel.
- E ISSF MQS places (where available) may be offered by the Selection Panel to athletes who are considered to have genuine future potential and whom, in the eyes of the Panel, are likely to benefit from increased international exposure with a view to improving their performances on the international stage in the longer term. No other selection criteria will apply and the decision will be entirely within the discretion of the Selection Panel.
- F For the ISSF Junior World Cup events, British Shooting may consider these as development opportunities for the athletes and may consider athletes who have not met the MCS score based on the remaining applicable criteria. This consideration will not apply to the ESC European Championships and the ISSF World Championships for Juniors. All decisions regarding development opportunities for the athletes shall entirely be within the discretion of the Selection Panel.

- G For international competitions where the organizers will accept entries from regional shooting federations, British Shooting will normally defer to the selection decisions of the respective Home Countries' Federations. However, British Shooting reserves the right to enter a Great Britain team at these competitions should it wish to do so.

2.4 Selection Panel

Selection of athletes for GBR Rifle and Pistol Teams will be decided by the GBR Rifle and Pistol Selection Panel. The makeup of the panel is outlined below.

The Selection Panel comprises

Voting

Performance Director (currently Steven Seligmann)

Representative for Pistol & Rifle on the Performance Group (currently Phil Scanlan)

Rifle & Pistol Manager (Olympic) (currently John Leighton-Dyson)

Independent Representative (currently Ken Parr Snr)

Non-voting

Procedural advisor (tba)

Attendance will normally be in person but, where this is not reasonably possible, attendance via telephone or other methods will be permitted.

The Procedural Advisor, who will normally be a qualified barrister or solicitor with appropriate experience and expertise, will be responsible for ensuring that British Shooting's selection procedures are complied with. Any questions of procedure that the Selection Panel may have about procedure will be referred to, and advised upon, by the Procedural Advisor. The Procedural Advisor will be instructed by the Performance Director and will attend all meetings. Where this is not possible by virtue of absence, then the Performance Director may co-opt a replacement Procedural Advisor to the Panel.

The Performance Director may, exceptionally, co-opt one, or more, additional voting members of the Selection Panel where this is necessary by virtue of the absence of one or more of the Panel members, or, some other substantial reason. Any such co-opted voting members will be required to have significant and demonstrable knowledge and experience of the sport of Target Shooting.

2.5 Selection Panel Procedures

The British Shooting GBR discipline manager for Rifle & Pistol (currently John Leighton Dyson) may input his professional opinion and advise on shooter performances and potential to the Selection Panel. This information will be considered by the Selection Panel in determining their decisions, which will be based on the selection criteria set out in this Policy.

The Selection Panel may consult other specialists including British Shooting sports science and medicine practitioners and other consultants and coaches where this is believed likely to assist with a selection decision. Where this happens, the Performance Director will determine what reasonable requirements in relation to confidentiality and otherwise should be imposed. Any such attendees may be asked to leave when other athletes are being discussed, or at any other time, and will not be present when any voting takes place.

Voting members of the Selection Panel will be encouraged to exercise their votes, save where the Procedural Advisor advises that one or more voting members should abstain by

reason of a conflict of interest or other legal requirement (or where a member himself or herself considers there to be such a conflict).

Where, exceptionally, a voting member of the Selection Panel is required to abstain, the Procedural Advisor will consider and advise upon whether fairness requires that voting member to abstain in respect of any other related selections.

The Performance Director will have the final decision in the event of any dispute and will have the casting vote where the votes cast are not decisive.

The selection process is an exercise of judgment and is, in part, guided by, but not determined by results in competitions. The selection decision is based on consideration of all the GBR team selection criteria, which utilises both objective performance data and the opinion of the expert Selection Panel.

Once selected, both athletes and staff will be required to sign up to the British Shooting GBR Team Code of Conduct and any other rules and regulations which BS from time to time may impose. The Code of Conduct must be signed and returned by the individual before selection is confirmed.

3.0 Selection Competitions.

Major and Minor Competitions - For the purposes of selection of teams and individuals to represent Great Britain, international competitions other than the European Games, Youth Olympic Games and Olympic Games are divided into two categories: Major Competitions comprise ISSF World Championships, ESC European Championships and ISSF World Cup competitions. - Scores shot at any 'closed', re-entry or additional competitions will not be considered by the Panel in their deliberations.

3.3 25m ISSF Pistol events

Due to the restrictions of firearms legislation, it is not possible to hold domestic open matches in the 25m cartridge pistol events (25m Pistol, 25m Rapid Fire Pistol, 25m Standard Pistol and 25m Centrefire Pistol).

For these events, the British Shooting Discipline Manager may nominate or arrange up to a maximum of 8 matches in an event as selection matches, with no more than 1 match in an event being shot at a competition or at a training camp. Trials matches will be notified to likely participants in advance.

Other scores achieved subject to ISSF and ESC rules in all events may be noted by the Selection Panel.

4.0 Selection in Mixed Pairs Events.

For the selection of athletes to mixed pairs events, the Selection Panel will make their decisions on the basis of the following criteria for selection (in no particular order):

- 1) Performance in any recognised Mixed Pair competitions.
- 2) Mixed Pairs performance at Major Events during the previous 12 months, with particular emphasis on pairs achieving a medal or final placing, and/or notable performances by an individual in a Mixed Pairs event.
- 3) Individual performances at Major Events and British Shooting recognised domestic and international events during the previous 12 months, with particular emphasis on athletes achieving a medal, a final placing or MCS at international events.
- 4) The pairings with the best potential to win a medal in Mixed Pairs events at forthcoming Major Events, in the view of the expert Selection Panel.

Minor Competitions in ISSF Events. If Great Britain is to enter a team in a representative Minor competition (e.g.: The Nordic Championships), the Selection Panel will prioritise their selection decisions on performance criteria set out in section 2.3

If Great Britain is to enter athletes in other Minor competitions, the Selection Panel will prioritise their selection decisions on the training and development needs of the athletes concerned. The main purpose of these Minor competitions is to prepare athletes for the Major competitions. This decision shall entirely be within the discretion of the Selection Panel.

5.0 Selection Trials Competitions.

The Selection Panel may arrange trials competitions to be held at training camps in the UK and/or abroad.

Selected athletes are not to make any announcements to the media or general public in any form whatsoever of their possible or confirmed selection or non-selection prior to the official announcement by British Shooting.

British Shooting will endeavour in all cases to give advance notice of selection as early as possible in order to assist those athletes who are self-funded

9.0 Athlete Availability

Before the commencement of the international competition season British Shooting will publish on their website Availability Forms for both Pistol and Rifle which are to be completed and returned to British Shooting indicating which international competitions athletes wish to be considered for. Changes can be made at any time, but it is the responsibility of each athlete to ensure that they are submitted at least two months prior to their preferred event(s).

10.0 De-selection or removal from consideration for selection

The Selection Panel reserves the right to de-select, or to remove from consideration for selection, any athlete, at any time (subject to any event-specific deadlines):

- Who is medically unfit to compete as a result of injury or illness.
- Who does not comply with British Shooting's code of conduct for team members or whose behaviour is otherwise disruptive or potentially damaging to British Shooting and the team and/or undermines, in any way, the objective of winning the best set of medals.
- Whose performance level falls following selection to the extent that the Selection Panel considers in its reasonable opinion that the athlete will not perform to the best of his/her ability at the relevant event.
- Where British Shooting does not provide full funding, an individual who fails to pay any sum required within the agreed time frames, to be paid to attend the Event. Or, where there is any outstanding amount owed to British Shooting from a previous event.
- Where logistical arrangements are being made on behalf of the athlete by British Shooting, the athlete fails to provide timely organisational information and fails to co-operate in a manner that allows timely completion of competition arrangements.

- Who fails to comply with any drug-testing requirement of the Anti-Doping, or any anti-doping requirements imposed by the Event organisers or others with appropriate authority so to do, or who otherwise breaches the WADA Code or other applicable anti-doping regulations.
- Who has either had a Firearm Certificate revoked and not subsequently returned or, been convicted of an offence involving Firearms, including Airguns.
- Where a selection has been successfully appealed, the athlete originally selected will be automatically de-selected pending the further selection process.

Where an athlete is de-selected, or removed from consideration for selection, written reasons will be provided within 72 hours of such removal/de-selection.

11.0 Athlete replacement

A reserve athlete can be selected to replace any athlete who is removed based on the above or for any other unforeseen reason. The reserve athlete will be selected in accordance with the criteria set out above.

12.0 Selection Procedure amendments

British Shooting reserves the right to amend the Selection Procedure wherever appropriate or necessary, in particular as a result of factors beyond British Shooting's control. It is the responsibility of athletes to acquaint themselves with the Selection Procedure applicable to the event, and all related documents (as set out above). Changes to the Selection Procedure will come into effect from the date where they are shown on the British Shooting website.

13.0 Anti-Doping

Those athletes selected to represent Great Britain will be required to consent to the requirements of the British Shooting anti-doping policy, as amended from time to time, and any other requirements that may be imposed for the event.

As a condition of selection, athletes should have attended Anti Doping education with a recognised body.

14.0 British Shooting Code of Conduct

Once selected, both athletes and staff will be required to sign up to and adhere to the British Shooting GBR Team Code of Conduct and any other rules and regulations which BS from time to time may impose. This is a mandatory requirement and will need to be signed prior to departing for a selected event.

15.0 Appeals

Athletes are entitled to appeal a decision by the Selection Panel not to select them under this policy in accordance with the procedure set out here. The appeal process is intended to be quick, fair and independent.

15.1 Appeals Process

- I. If an athlete wishes to appeal, he or she must notify the Chief Executive of British Shooting that they wish to appeal as soon as possible, and in any event no later than 24hrs after the announcement of selection on the British Shooting website. A

notification of an intention to appeal must be given in writing (an e-mail is acceptable this should be sent to hamish.mcinnnes@britishshooting.org.uk).

- II. The athlete must, by 4pm on the second day following such notification, provide to the Chief Executive of British Shooting a written document setting out the grounds for the appeal (the "Grounds of Appeal"). The Grounds of Appeal must include the fullest explanation possible, in the time available, of the basis for the athlete's appeal, together with any evidence that they rely on. Athletes should note that the only available grounds of appeal are either that the Selection Policy was not followed, or that the decision in question was unreasonable and/or not reached in a manner consistent with the principles of natural justice and procedural fairness.
- III. If, in the reasonable view of the Chief Executive of British Shooting, the appeal may affect other athletes ("Affected Athletes"), then he must provide the Grounds of Appeal to any such persons as soon as possible.
- IV. The selection appeal will then as soon as possible be referred to Sport Resolutions (UK) for determination by way of binding, confidential, arbitration. The parties agree that they will not commence, continue or maintain any legal challenge to decisions taken by the Selection Panel other than through the Appeals Procedure.
- V. An athlete seeking to appeal will, accordingly, be required to pay to British Shooting a deposit of £250 towards the cost of using Sport Resolutions' services, which should be paid at the same time as the Grounds of Appeal are provided. This sum will be reimbursed to the athlete in the event that the appeal is upheld.
- VI. British Shooting must, as soon as possible and by no later than by 4pm two days after receipt of the Grounds of Appeal, serve on the appealing athlete and on any Affected Athlete a written response to the appeal, including the fullest explanation possible, in the time available, of the basis for that response together with any evidence that British Shooting wishes to rely on.
- VII. Any Affected Athlete may also, as soon as possible and by no later than by 4pm two days after receipt of the Grounds of Appeal, serve on British Shooting a written response to the appeal, including the fullest explanation possible, in the time available, of the basis for that response together with an evidence that they wish to rely on. British Shooting must provide this written response to the appealing athlete as soon as possible.
- VIII. The appeal will then proceed, on the earliest possible date by way of oral hearing in front of a single legally qualified arbitrator appointed by Sport Resolutions. The appealing athlete, British Shooting and any Affected Athlete are entitled to attend such a hearing, with representatives if they so wish. Sport Resolutions will be responsible for arranging the hearing and for notifying the appealing athlete, British Shooting and any Affected Athlete of the time, date and location of the hearing. Alternatively, if the athlete, British Shooting and any Affected Athlete agree, the appeal will be determined

on the papers by the arbitrator. The arbitrator may set any directions in connection with such a hearing or written determination as they consider fair and appropriate, and may likewise determine how any such hearing is to be conducted in order for that hearing to be fair.

- IX. The arbitrator will endeavour to render a decision in respect of the appeal as soon as possible. In the interests of expediency, the arbitrator may initially render a brief summary of the decision orally at the conclusion of the hearing, or in writing after the hearing, with full reasons to follow. Sport Resolutions (UK) will be responsible for notifying all participants of the decision.
- X. The arbitrator may either dismiss the appeal or uphold the appeal and remit the selection decision back to the Selection Panel, with any guidance, which the arbitrator may consider appropriate. The arbitrator will not have jurisdiction to select or de-select any athlete.
- XI. The arbitrator's decision will be final: if an athlete's appeal is dismissed, he or she will have no further right of appeal. Equally an Affected Athlete shall have no right to appeal the decision of the arbitrator.
- XII. Save as may otherwise be agreed between them, all participants to the appeal process are required to keep the fact and contents of the appeal process confidential. Any information disclosed to athletes regarding selection, non-selection or through the appeals process is required to be confidential and should not be shared publicly. Athletes will be required to sign a non-disclosure form.
- XIII. Save as provided for above, all parties to an appeal shall bear their own costs.
